

ABOUT ME

- Brazilian, born in November 1983.
- I learned to read at the age of 3 - at that age I was able to read the text in newspaper headlines.
- I have Eidetic Memory (also known as Photographic Memory)
- I have serious problems with socialization (mainly with regard to physical contact)
- Graduated in Physics since I was 20 years old
- I play video games since I was 5 years old
- I was recently diagnosed - approximately 5 years ago - with and Asperger's Syndrome (which according to the medical classification is the "mildest" form of the mental condition known as Autism Spectrum Disorder - ASD), after several other erroneous diagnoses (Savantism, Superdidacticism, ADHD)
- I have extreme difficulties in recognizing and showing emotions, seeming cold/monotonous most of the time.
- I use "Circumstantial Speech" frequently.
- I am very mostly serious and I find it difficult to focus on one thing, especially when it doesn't interest me.
- I suffer from sudden behavioral/mood changes, which according to doctors, are caused by the condition described above (Asperger)
- I suffer from extreme depression, panic and anxiety attacks
- I'm extremely shy
- I have extreme sensitivity to noise, crowded places
- I have extreme difficulty working in/with groups

To learn more about Asperger's Syndrome, type !asperger in the chat!
REMEMBER: it's not because you are unable to see or understand
that it doesn't exist. Mental health is serious!
